SPIDS Week 2025

برعاية صاحب السمو الملكي

الأمير سلمان بن سلطان بن عبدالعزيز

أمير منطقة المدينة المنورة

Welcome Message

طَلَعَ الْبَدْرُ عَلَيْنَا
وَجِبَ الشُّكْرُ عَلَيْنَا
مِنْ تَيَّاتِ الْوَدَاعِ
مَا دَعَا لِلَّهِ رَاعِ

The full moon appeared to us
From the valley of departures
We owe it to show gratefulness
Where the call is to Allah

Enerous since time immemorial

كرم منذ الأزل

We are proud to welcome you to the fifth Edition of SPIDS Week 2025. Step into pediatric infectious diseases future where technology and Artificial intelligence remain pivotal in shaping our lives, unlocking Fresh possibilities and defining a new era.

After a decade driven by AI progress, we'll delve into its ongoing Influence across diverse sectors. To match that, the programme over Three days. At SPIDS Week 2025 is committed to promoting the Advancement of innovative solutions using interdisciplinary approaches. It will include keynote lectures, interactive sessions, pitch talk of new Innovative in infectious diseases , and poster presentations.

Moreover, there will be several opportunities for networking, participates To showcase their new products, projects and technologies as well as Dedicated time for social gathering.

Looking forward to welcoming you in September 16-18, 2025, in Medina.

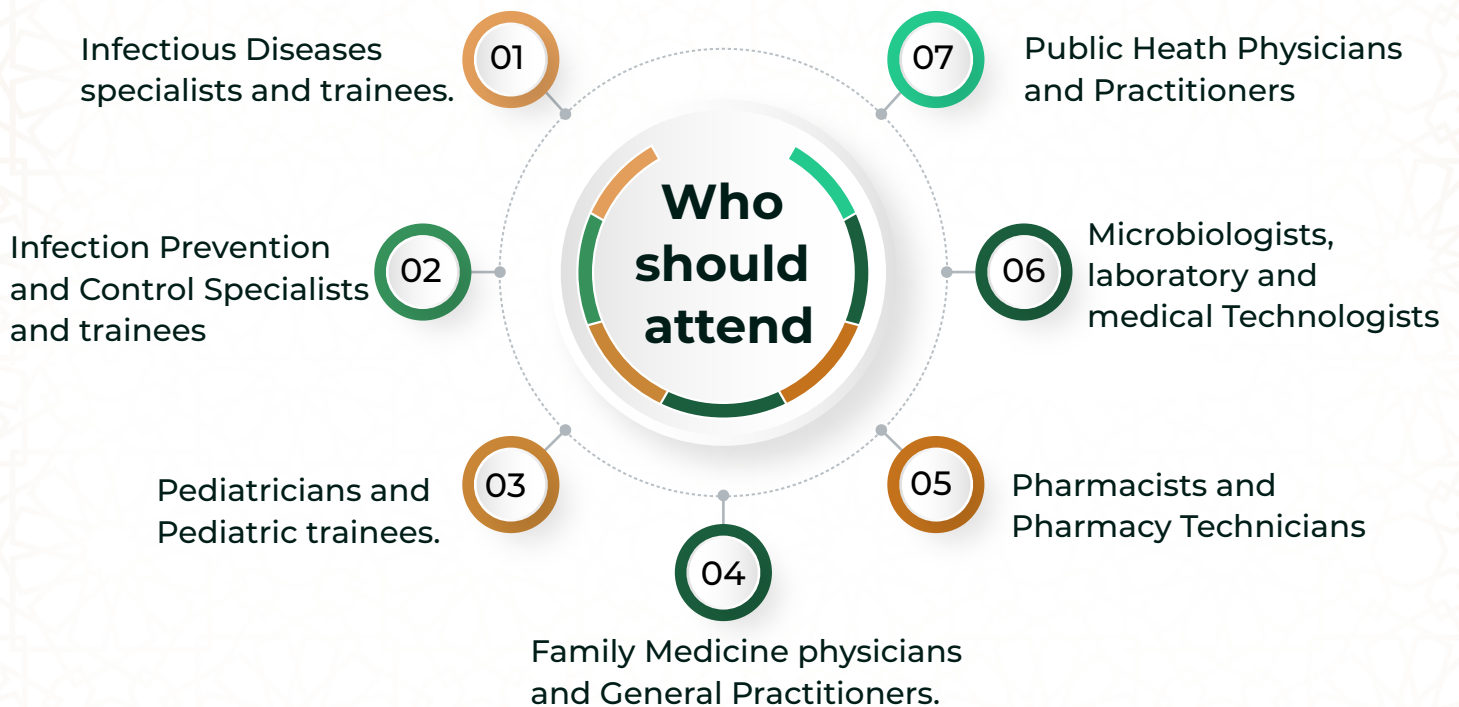

Best regards,

Dr. Rana

Dr. Rana Almaghrabi
SPIDS president 2025

Key Benefits of attending :

- Learn from regional and international experts in Pediatric Infectious Diseases.
- Review current issues, gain new insights, knowledge, and comprehension of various Pediatric Infectious Diseases topics.
- Identify how to approach key issues, matters and common problem encountered in your daily practice.
- Stay current and recognize the contemporary and ongoing issues in the field.
- Foster interactions between pharmaceutical industries, researchers, technology developers, and clinicians, thereby contributing to the development of innovative strategies against infectious diseases in a multidisciplinary approach.
- It focuses on the effective use of AI in managing infectious diseases.
- Share you experience, address your questions, and deliver your opinion.
- Obtain CME points by attending this conference.
- Collaborate and find work opportunities with people in the field.
- Network and build relationships with key experts in the healthcare industry.

SPIDS Week 2025

Consultant pediatric Infectious Diseases, Division of Pediatric infectious diseases, MAD-ID Antimicrobial stewardship certificate. Director, Scientific committee of pediatric infectious diseases fellowship program. President, Saudi pediatric infectious diseases society. Adjunct assistant Professor of Pediatrics ,AlFaisal University, WSPID AMR Declaration Committee. Member of the IDSA Antimicrobial Stewardship Centers of Excellence. Head of Antimicrobial Stewardship Center of excellence, PSMCC, **Riyadh, Saudi Arabia**

Introduction to the Scientific Programme

The SPIDS week 2025 Scientific Program is Thoughtfully structured into 4 main Categories. These categories include the Scientific Segment, which is arranged into sessions or symposia, Open forum discussions, Research, and educational sessions. Furthermore, for the first time, and in-line with this year's theme of innovation, a dedicated innovation track was introduced. Additionally, the program includes a carefully crafted Professional, career-oriented inspiring and ethically ground presentations. That said, there are few outlier segments or the "Grab Bag" items that don't neatly fit into any single theme. These are often an out-of-the-box, creative sessions, designed to add a splash of fun, surprises and creativity to the overall experience.

1- Scientific Sessions/Symposia:

40 – 90 minutes, including Q & A session
2-4 talks (2-4 speakers)
2 chairpersons

Each session/symposium consists of a focused topics built around a specific domain or track in the field and features a specialised presentations that are delivered by experts Physicians in the track. SPIDS week covers 15 unparalleled sessions in different tracks. Tracks are color-coded in the program to ease navigation.

Featured Sessions in SPIDS week 2025:

Innovation track:

Taking up a central place in the program, this session was designed to serve as platform for groundbreaking discoveries, and any innovative, or revolutionary diagnostics, therapeutics in Pediatric Infectious Diseases.

Professional and Career Session:

Out of the ordinary, SPIDS week features a dedicated professional, ethical and career segments to complement the journey of Pediatric Infectious Diseases Specialists.

2- Open Forum:

20 – 30 minutes, including Q & A session
2-4 Panellists and 1 session lead
2 chairpersons

A Knowledge sharing and an open dialogue between senior experts that don't take the shape of a formal presentation. A remarkable example is the powerful and inspiring "Presidents' talk" and the entertaining Show of "A day with IPC Pager"

3-Research session:

50 minutes, 3 oral Abstract presenters and speaker
2 chairpersons

Abstract participants can present their Pending (published) research orally or showcase their work in the Exhibition as ePosters. They're one step away from publishing their work in one of the leading National Journals who partner with SPIDS week to advance the local research.

4- Education sessions:

30 – 45 minutes, 2- 3 speakers

2 Chairpersons

Educational sessions, often referred to as “Afternoon delight”, feature a non-traditional way of learning, and offer a learning experience in a more relaxed, engaging and inspiring way. These out-of-the-box sessions have been the signature of SPIDS week over the years. Most notable this year are: “R.E.D B.O.O.K On, step-By-Step Education” and SPIDS Week Annual Competition

5- Spotlight:

SPIDS Annual award:

A prestigious honor presented each year to a distinguished health professional or expert whose work significantly contributes to the theme of that year’s SPIDS Week.

6 - Special Features:

SPIDS week Named Lecture:

A distinguished keynote presentation established to honor the pioneering work of a health professional whose contributions have had a profound and a lasting impact on the field.

Young SPIDS:

This year marks a bold new step with the introduction of the “Young SPIDS” session, an initiative born again from our 2025 theme of Innovation. You will see them take the stage as speakers, presenters, moderators, and active contributors across the program. Their voices aren't just welcomed-They're essential.

TRACKS:

- CLN** Clinical
- DX** Diagnostics
- IPC** Infection Prevention and Control
- ASP** Antimicrobial Stewardship
- VAX** Vaccinology and Immunology
- PHE** Public Health and Emerging infections
- RSH** Research and Publications
- INN** Innovation
- PRO** Professional and Career
